My dear Sam.

We are having some nice weather and I ride and rock whenever I can. I walked up and back when I saw the Dr. our hours are. He says I am gaining ground daily but slowly and wishes that I could stay here next week.

I think I will go to church to go up and make a professional visit. and visit Tom of the Mammoth.

It will be a personal matter of fashion and divide the responsibility if he recommends us to go on. Ever Yours James Kenayon. A. F. J.
